

Gem Interest Free lockup and badges: A user's guide

Version 1.0 – December 2020

Gem by Latitude is the leader in interest free shopping and have been investing in growing awareness and provide clarity around our interest free products.

To support this approach, we have developed a suite of Interest Free identifiers that can appear across your various shopping touch points to assist your customer's experience.

This also allows us to be clearer, up front, so your customer knows who is providing their financing.

This usage guide showcases the suite of lockups and badges designed to promote the Gem Interest Free offering.

Designed to be flexible, there are several options available, each one appropriate for specific purposes based on size and message needs. We will also be using these as we promote through our social channel.

Hopefully you'll find this guide really easy to use but we are here should you have any queries.

Get in touch with your Program or Marketing contact or send an email to **brand@latitudefinancial.com** and help will arrive shortly.

Introduction

The Gem Interest Free lockups and badges have been created to reinforce the brand as the provider of interest free payment plans and buy now pay later products.

We have not included 'by Latitude' in the device designs due to size/legibility restrictions.

Retail Badges

These badges succinctly communicate Interest
Free shopping with Gem as a feature on the
retail offerings of our merchant partners.

These badges are used in communications that feature product and offers. Where possible, they should be Gem branded and can also highlight a secondary point such as payment terms.

Example usage

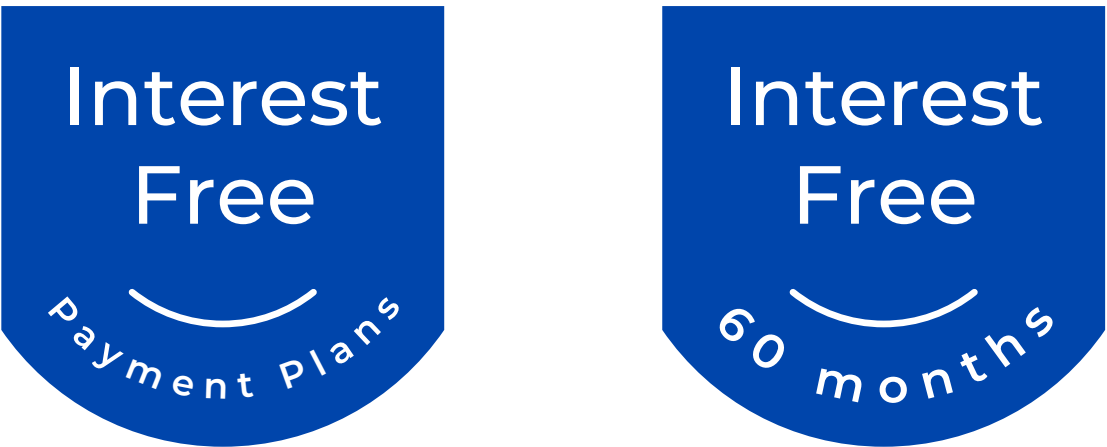

These badges prioritise the legibility of Interest Free which makes them suitable for most contexts.

Merchant branded space

Gem branded space

We've designed these badges so you have flexibility in what you build into your content.

You'll see over the various designs that you can highlight the payment terms, payment plans, or even just the benefits of Interest Free (Enjoy now. Pay later).

We also have an alternate suite which can be used when the Interest Free term is the main proposition.

Utilize these badges to showcase an always-on offer or a limited term promotion.

Example usage

Where Interest Free is clearly the focus, use these badges to further communicate the terms of the Interest Free offer.
